

Recall Notice
Selected Sizes and Lots of
3M™ Protective Coverall 4570 (L, XL, XXL)
IMMEDIATE ACTION REQUIRED

December 12, 2017

Dear Valued Customer,

3M has determined that select production lots and sizes of the 3M™ Protective Coverall 4570 may not meet a certain aspect of the EN-1149:5-2008 standard, specifically related to anti-static performance of the protective coverall. No other performance aspects of the coverall are affected, however we are asking that immediate action be taken to return these products to 3M.

The following products, with manufacture dates of 08/2017 or 09/2017 need to be returned to 3M immediately. Please call **1-800-328-1667** for return and refund information.

The following products are affected:

Product	3M ID	UPC Number
3M™ Protective Coverall 4570 L	GT-7000-0457-9	04046719468416
3M™ Protective Coverall 4570 XL	GT-7000-0488-7	04046719468447
3M™ Protective Coverall 4570 XXL	GT-7000-0489-5	04046719468461

There are several ways the date of manufacture can be identified on the affected 4570 product;

1. Shipper label. The date of manufacture (DOM) can be found on the right hand side of the shipper label in the format of MM/YYYY, where MM is the month and YYYY is the year of manufacture. Affected product will have DOM 08/2017 or 09/2017. Please see example shipper label:

- 2. Product label. There is a label on the inside of each 4570 coverall that contains a DOM in the form MM/YYYY, where MM is the month of manufacture and YYYY is the year. Affected product will have DOM 08/2017 or 09/2017. Please see example product label:

Please DO NOT USE any affected 3M™ Protective Coverall 4570 products, and please return any affected product to 3M for a full refund.
