Visibility, control, savings

Order Management

- Streamline your procurement process with Airgas.com, designed to expedite order management, invoicing, billing and order tracking
- Organize receipts with digital proof of delivery
- Gain visibility into your daily operations with robust reporting that helps control purchasing and easily anticipates your needs
- Get end-to-end efficiencies when linking your eProcurement platform to Airgas SupplySync

Inventory Management

- Improve usage and traceability with optimized stocking and distribution, to better control your spend
- Enhance visibility across your facilities while reducing inventory loss and time-consuming paperwork, using Airgas EZ-TRAC™ barcode tracking system
- Eliminate runouts, emergency requests and overstocking with streamlined replenishment options such as EZ-VEND® VMI and vending solutions

Operations Management

- Gain efficiencies and save time with storage, handling and point-of-use connections, managed by Airgas
- Ensure reliability of your operations with accurate gas monitoring
- Improve safety, reduce risks and prevent dangerous leaks when Airgas designs, installs and manages your gas supply system
- Get peace of mind with Airgas expertise to help enhance the productivity of your process, and improve quality control and compliance for your operations

Total Managed Services

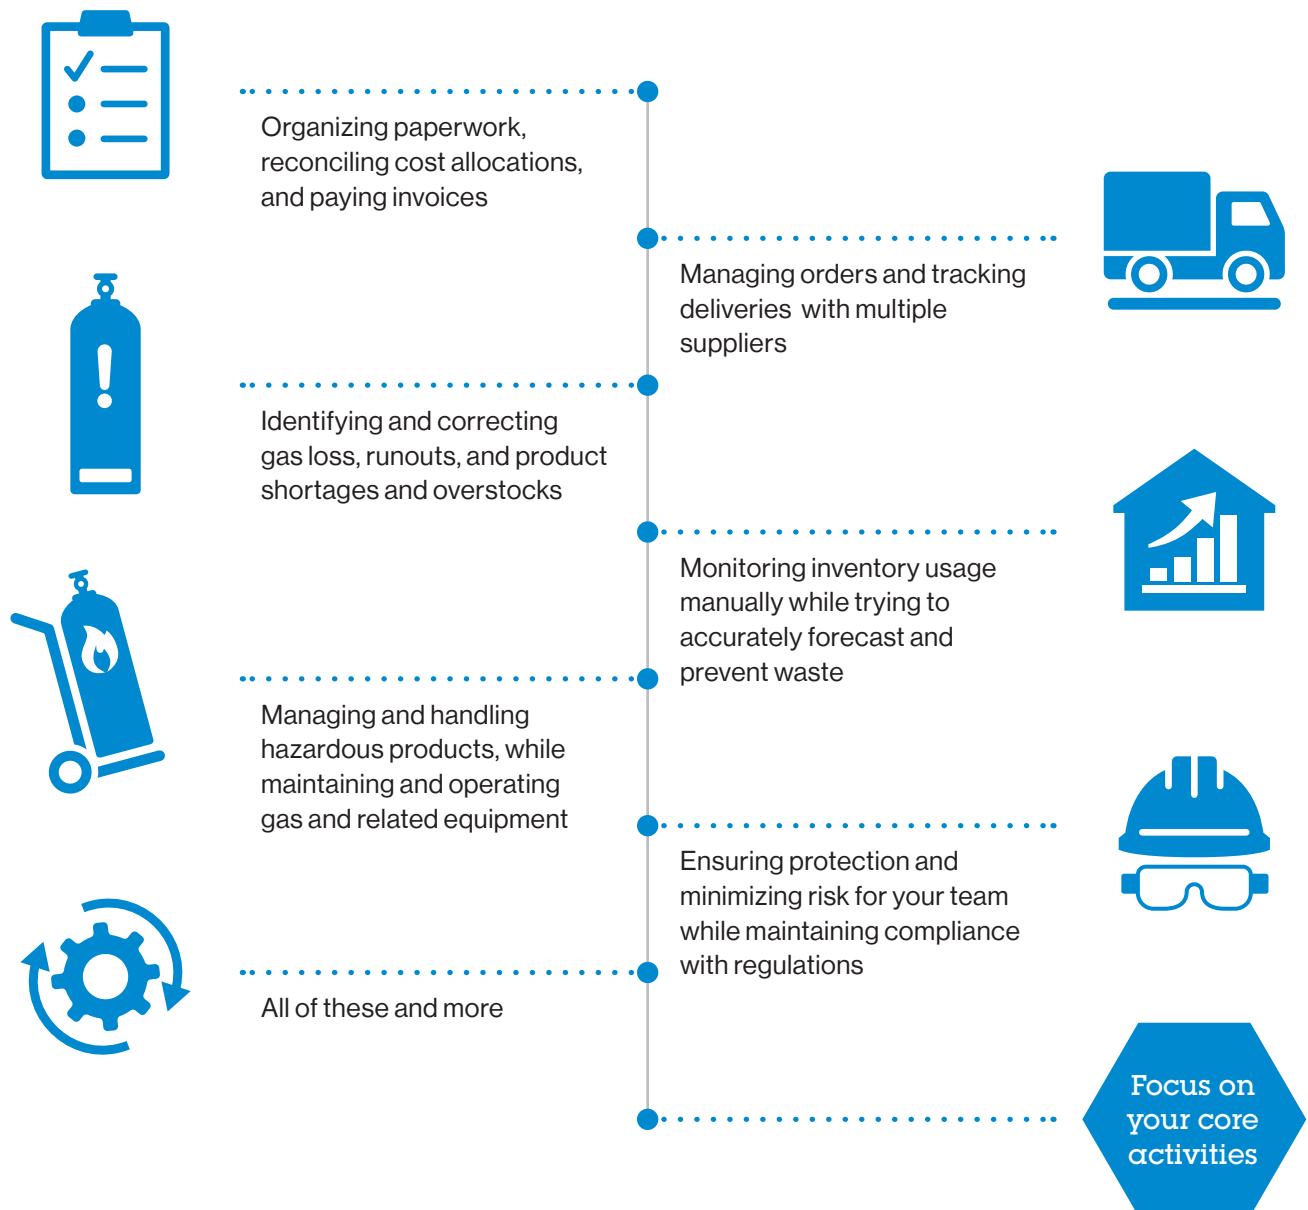

A customized and comprehensive solutions package that includes order, inventory and operations management services, plus:

- One or more dedicated Airgas technicians at your facility to work closely with your team and manage gases, equipment, hardgoods, safety products and PPE
- Direct access to expertise and quality control
- Continuous performance and process improvements that translate into savings

There's a lot depending on you.

Gases, welding hardgoods, safety supplies and related equipment are a small part of your company's total purchases, yet they have an enormous impact on productivity. Managing the supply of these products can be challenging: lost assets, inefficient procurement, confusing invoices and more. Managing inventory on your own can be frustrating, expensive and time-consuming.

How much time do you spend on tasks like these?

About Airgas

Airgas, an Air Liquide company, is a leading U.S. supplier of industrial, medical and specialty gases, as well as hardgoods and related products; one of the largest U.S. suppliers of safety products; and a leading U.S. supplier of ammonia products and process chemicals.

Dedicated to improving the performance of its more than 1 million customers, Airgas safely and reliably provides products, services and expertise through its more than 18,500 associates, over 1,400 locations, robust e-Business platform, and Airgas Total Access® telesales channel.

“Improve your daily operations with services designed to save time and money.”
